

How To Get The Most From Your Visit

President Theodore Roosevelt established Devils Tower as the nation's first national monument on September 24, 1906. The spectacular rock formation known as Devils Tower and surrounding area are home to a myriad of plant and animal life. American Indians consider the area sacred, a place for prayer and renewal. Visitors delight in the beauty of the area and enjoy the activities offered at the monument. Climbers test their skills on vertical rock walls.
